

# Launching New Traditions built upon a Proud Past

by Sarah Hudzinski

Since 1886, the destination remains the same ... The **Green Lake Marina Resort** is repeating history by bringing back the tradition and thrill of time spent on the water while creating the atmosphere of a true destination location.

Nestled on the beautiful waters of Wisconsin's deepest inland lake, the Hillebrandt family invites you to relax and unwind at the Green Lake Marina Resort – conveniently located in downtown Green Lake. With the perfect combination of a full service, pleasure boat marina with marine market, exceptional waterfront dining and luxurious accommodations – the Green Lake Marina Resort has something special for everyone.

As the area's full service, on-water marina, bringing back the feeling of nostalgia and relaxed time on the water is what they are all about. The Green Lake Marina is especially proud to bring back the tradition of the Chris-Craft boat line to the waters of Green Lake. In addition to the Chris-Craft line, they operate as a full service marine facility with an extensive line of marine/watersports accessories, fully stocked marine market with gifts, full service fuel dock, permanent and transient boat slips, dry storage, winterization and 24 hour on call service staff.

“We want to create a very customer-orientated marina of manageable size where every customer is treated as if they were our only customer,” said Sales & Service Manager Randy Norton. “It is our goal to make this a destination for people.” **Everything old is new again** as Norton marks the fifth generation of his family to conduct business on this site, which was formerly owned by the Norton family since 1886.

For those that want to drop anchor in Green Lake, there is a new luxurious option providing the perfect vacation experience. Spend the night, or the week, in one of the nautical themed condominiums where you can experience today's conveniences while surrounded by old world charm and spectacular lake views from your own private deck. Each condo provides the perfect setting for that long overdue romantic getaway, or plenty of room if your plans include the entire family.

Operated as a true destination location, visitors and guests can also enjoy the thrill of the water aboard a personal watercraft, runabout or pontoon available for rent from Green Lake Boat Rentals, featuring the newest rental fleet on the lake. You can enjoy your on-water adventure by the hour or day.

When back on land, the casual elegance of The Waterfront Grill welcomes guests for lunch, dinner or cocktails and offers outstanding food, service and views. The restaurant is dedicated to offering only the finest quality foods, wines and spirits which is reinforced by a menu featuring organic and locally grown ingredients. The amazing staff is dedicated to guest satisfaction and exemplifies the gracious hospitality that is a hallmark of Green Lake.

The Hillebrandt family and staff welcome all guests and visitors with open arms and truly make the Green Lake Marina Resort a favorite destination. Make sure to check their website often as their mascot Capt. Woody keeps you up-to-date on the resort happenings and of course, all his crazy adventures.
